ABOUT ME

Haridaskati Government Primary School was my first school where my academic journey was started. I was admitted to Kapilmuni Sahachari Vidyamandir for Secondary School Certificate Examination and I continued to Cantonment College Jashore for my intermediate college education. I am proud to be part of the prestigious KUET. I am currently third year first term student in the Department of Computer Science and Engineering at Khulna University of Engineering & Technology, where I am actively pursuing my studies and exploring various aspects of the field.

SELECTED ACADEMIC PROJECTS

HomeZone 2022

- This app will ease our boring life by finding house in rent and at the same time this can be used for buying blank house plot. This app will also provide your favourite house in specific place with your own choice.

PocketGuard 2022

- This app will ease our boring life by managing your income and expense and at the same time this can be used for setting your goal. This app will also provide you parental control.

Current Location App 2022

- The current location app is a digital tool that utilizes GPS technology to pinpoint a user's precise geographic coordinates on a map in real-time. It offers navigation guidance, nearby point-of-interest information, and location sharing features, enhancing convenience and safety for users in various activities and scenarios.

News Portal 2022

- The news portal project creates an online platform for widespread news dissemination. It includes website or app development, offering articles, videos, and multimedia content on various topics. Features like user registration, content management, comments, and social media integration aim to provide comprehensive news coverage and user engagement opportunities.
